

CURRICULUM VITAE

Personal details

Name: Konstantin Chegaev
e-mail: konstantin.chegaev@gmail.com

Education and training

- March 2001. Master degree in organic chemistry at Higher College of Chemistry of Russian Academy of Sciences, Mendeleev University of Moscow, graduated with honor.
- February 2005. PhD degree in Medicinal Chemistry, Pharmaceutical Faculty of Turin University.

Working experience:

- 11/2004 – 11/2006: postdoctoral scholarship at Pharmaceutical Faculty of Turin University, synthesis of novel molecule with potential cardiovascular activities.
- 11/2006 – 09/2019: assistant professor at the Department of Drug Science and Technology of Turin University.
- 10/2019 – present: associate professor at the Department of Drug Science and Technology of Turin University.

Working interests:

The present research activity is mainly oriented to structural and pharmacological design, synthesis and characterization of new multitarget molecules. Such substances are potentially useful in the treatment of multifactorial diseases, such as cardiovascular disorders, cancers and neurodegenerative diseases.
